

Heat Shrink Wrap

PROTECTION AGAINST WEATHER DAMAGE

HEAT SHRINK WRAP

- 6-12 mil thicknesses available, wide variety of sizes
- Creates weather-tight containments
- Wrap scaffolding, covers buildings, bridges, ships, and more
- Available in both Fire Retardant and non-Fire Retardant and UVI for full exposure up to 2 years

SHRINKFAST™ 998 GUN

- Lightweight - 2.2 lbs
- Ergonomic design for extended use
- Perfectly balanced for operator comfort
- Cool combustor for operator safety
- Wide even heat pattern - up to 18 inches in a single pass
- Adjustable power - 134,000 BTU/HR @ 15 PSI (39 KW) to 212,000 BTU/HR @ 30 PSI (62 KW)

LONG-CUFF GLOVES

- Heat shrink wrap can get very hot!
- Protection from heat of flame while heating the shrink wrap
- Long cuff runs down over wrist to protect entire hand
- Still maintains flexibility and dexterity

HEAT SHRINK WRAP TAPE

- Applies well in cold or hot weather
- Removes cleanly and easily
- Good tensile strength and excellent tear characteristics
- 9 mil
- 2", 4", and 6" wide available
- Available by roll or cases
- Available in clear, white, and blue

RATCHET TENSIONER TOOL

- Tightens woven cord strapping in heavy-duty applications
- Built-in cutter finishes the job by cutting the excess strapping
- Fits Coil widths 1/2", 3/4" and 5/8"
